PROJECTS

Sights & Sounds - Event Planner
GitHub: https://github.com/ttudorandrei/event-planner
Deployed Project: https://ttudorandrei.github.io/event-planner/index.html
- An event planner app that communicates with the Foursquare API and Ticketmaster API to display venues, parks and events in a user chosen location.
- For this app we have used HTML5, CSS3, JavaScript, jQuery, Materialize CSS, Foursquare API and Ticketmaster API

Weather Dashboard
GitHub: https://github.com/ttudorandrei/weather_dashboard
Deployed Project: https://ttudorandrei.github.io/weather_dashboard/
- A Weather App that displays current weather and 5-day forecast for the selected city and saves the city in history so it can be re-visited at a later time.
- The app was built using HTML5, CSS3, jQuery, Bootstrap and Open Weather API

Work Day Scheduler
GitHub: https://github.com/ttudorandrei/work_day_scheduler
Deployed Project: https://ttudorandrei.github.io/work_day_scheduler/
- A simple Work Day scheduler that allows the user to add and save important messages for the current work day.
- For this app I have used HTML5, CSS3, jQuery, MomentJS
